

June 23, 2026, HBR Alert!

Reminder: 2026 State Health Plan ACA 1094/1095 Reporting Program Signup

This information is for non-FIORI (formerly BEACON) groups who are part of the State Health Plan (Plan). Best Shared Services handles the ACA reporting requirements for all FIORI agencies.

The 2026 ACA Reporting Program signup deadline is June 30. Groups must sign up each year regardless of past participation.

Sign up online here: [State Health Plan - ACA Program Signup](#)

Please refer to the [May 12 HBR Alert](#) for a full description of this year's program options.

All groups should submit an online signup form even if only using the free "data download only" capability, in which groups can download their ACA data from the Benefitplace platform. The reason is to provide a valid group contact to receive COBRA data files in December. Failure to submit a signup form could jeopardize your group's delivery of COBRA data.

Important Notes

- All groups participating in 2026 paid options will be defaulted to the Fully Managed option unless they select a lower tier.
- After signing up, the group will receive further Plan communication that includes deadlines, expectations, and cost. Each group will be asked to acknowledge receipt and understanding.

- Groups are accountable for meeting critical program deadlines. Failure to meet participation standards could result in being dropped from the program.

Questions? Please contact the Plan ACA Team at aca@nctreasurer.gov.
