Important Questions	Answers	Why This Matters:
What is the overall deductible?	**$3,000** person/**$9,000** family for in-network; **$6,000** person / **$18,000** family for out-of-network; doesn't apply to in-network preventive care. Coinsurance and copayments do not apply to the deductible.	You must pay all the costs up to the deductible amount before this plan begins to pay for covered services you use. Check your policy or plan document to see when the deductible starts over (usually, but not always, January 1st). See the chart starting on page 2 for how much you pay for covered services after you meet the deductible.
Are there services covered before you meet your deductible?	Yes. Preventive care services are covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/.
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services, but see the chart starting on page 2 for other costs for services this plan covers.
What is the out-of-pocket limit for this plan?	**$6,500** person/**$16,300** family for in-network; **$13,000** person /**$32,600** family for out-of-network	The **out-of-pocket limit** is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the out-of-pocket limit?	Your cost for services when pre-authorization was not obtained, premiums, balance-billed charges and health care services this plan doesn't cover.	Even though you pay these expenses, they don't count toward the **out-of-pocket limit.**
Will you pay less if you use a network provider?	Yes.	If you use an in-network doctor or other health care **provider**, this plan will pay some or all of the costs of covered services. Be aware, your in-network doctor or hospital may use an out-of-network **provider** for some services. Plans use the term in-network, **preferred**, or participating for **providers** in their **network.** See the chart starting on page 2 for how this plan pays different kinds of **providers.**

.

Do you need a referral to see a specialist?	No.	You can see the **specialist** you choose without permission from this plan.

All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this plan might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your providers charge, and many other factors. Focus on the cost sharing amounts (deductibles, copayments and coinsurance) and excluded services under the plan. Use this information to compare the portion of costs you might pay under different health plans. Please note these coverage examples are based on self-only coverage and assume that the member DOES NOT visit a Preferred Provider.
